## NAV-lab: the power of shared experience

NAV-lab was founded in 2003 by a group of IT managers who chose to offer their customers the ERP Microsoft Dynamics NAV, now *Dynamics 365 Business Central*, as a management system capable of giving flexibility, efficiency and competitiveness to business processes in SMBs.

Since then, NAV-lab has become a fundamental partner for Microsoft in Italy.

The success of *Tempo Zero*, which minimizes the time of adoption of the ERP in the company, was confirmed by the rapid diffusion in terms of new users, until it became the most widespread solution today

in Italy for those who chose the Microsoft ERP.

NAV-lab's strength is its joint investment in R&D: the software laboratory where technical resources, experience and skills, gained in the group's 12 software houses, are shared.

The high quality of the assistance services offered is highly appreciated, both in the ERP start-up phases, including the study and implementation of customised solutions and in the subsequent phases of support for users' daily work.

## TEMPO ZERO CONAI

The Tempo Zero CONAI App for Microsoft Business Central allows you to manage and control the recovery and recycling process of the packaging materials you use, thanks to predefined automatisms and it fulfils the requirements of LEGISLATIVE DECREE no. 152 of 3 April 2006.

Managing the CONAI process outside the management system is tiring and causes considerable loss of time and can be a cause of errors and oversights.

*Do you need to enable your users to manage the process of recovery and recycling of packaging materials in an integrated way in the flow of purchases and sales?  
Do you want to comply easily with the CONAI regulations?*

**TEMPO ZERO CONAI makes the work in the offices smooth and secure because it ensures an easy, complete and automated management of the CONAI.**

It allows your collaborators to operate easily in managing the entire process of recovery and recycling of packaging.

It manages in detail the calculation of the CONAI contribution.

The Tempo Zero CONAI App allows you to operate while staying inside the Microsoft Business Central ERP.

# TEMPO ZERO CONAI

## BENEFITS FOR TEMPO ZERO CONAI USERS

Here are the benefits for the people who manage the process of recovery and recycling of packaging materials. You can set:

- ✓ Setup that allows you to define the list of packaging types, packaging costs and customers.
- ✓ The calculation of the CONAI contribution for packaging. These costs are distributed proportionally to:
  - total quantities;
  - weight;
  - type of packaging material placed on the national market.*For each material, the amount of the contribution per period must be specified. For each item, the weight or the total quantity must be specified to proportion the costs.*
- ✓ For each customer, the type of material and the membership range must be specified.
- ✓ Set up packaging linked to bills of materials for the sales side.
- ✓ The calculation management is available both on the purchases and on the sales.
- ✓ The app also handles the exemption cases through a CONAI Plafond management, and you can check everything through a printout for CONAI summary management about the sales.
